

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (original) A light cover arranged to be placed over a light source, the light source further emitting infrared radiation when in use, wherein the light cover includes a reflective element arranged to reflect a portion of said emitted infrared radiation away from said light cover and substantially away from said light source.

2. (original) A light cover according to claim 1, wherein said reflective element comprises an infrared reject filter.

3. (currently amended) A light cover according to claim 1 ~~or 2~~, wherein said reflective element is partially mirrored.

4. (currently amended) A light cover according to ~~any preceding claim~~ 1 wherein said light cover is manufactured from a synthetic material.

5. (original) A light cover according to claim 4, wherein said synthetic material is polycarbonate.

6. (currently amended) A light cover according to claim ~~4 or 5~~, wherein said light cover is coated with a scratch resistant layer.

7. (currently amended) A light cover according to ~~any preceding claim 1~~, wherein said reflective element is further arranged to reflect said infrared radiation away from said light source.

8. (currently amended) A light cover according to ~~any preceding claim 1~~, wherein said light cover comprises an aircraft exterior light cover.

9. (original) A light assembly comprising a light source mounted within a housing, the light source emitting infrared radiation when in use, a light cover placed over said light source and a reflective element located between said light source and said light cover and arranged to reflect a portion of the emitted infrared radiation away from the light cover and substantially away from said light source.
